Pongsakorn Naklang

097-1240-007 | pongsakornnaklang@gmail.com | github | Nakhon Ratchasima, Thailand

Full-stack developer with 3 years of experience writing clean, readable code. I specialize in Next.js and Node.js development, focusing on maintainable solutions. I am a strong collaborator and enjoy working in teams to build better software.

EXPERIENCE

Full-Stack Developer (Freelance) **Ayutthaya, Thailand**

Nexilar Co., Ltd. *Jul 2023 - Present*

KPI e-solution

- Developing the back-office system for an insurance sales platform.
- Designed and implemented features such as product & plan configuration, document generation (PDF), and storage management using MinIO.
- Built a PDF Text Mapper tool that automates data mapping and rendering into PDF documents.
- Tech Stack: Next.js, Ant design, Tailwind, Zustand, Nest.js, MySQL.

Customer Relationship Management (CRM) Platform

- Developed a CRM system for automated marketing via Email, SMS, and LINE OA.
- Built customer segmentation, campaign scheduling, and workflow automation.
- Created a Message Template Builder.
- Designed an interactive reporting dashboard.
- Tech Stack: Next.js, TypeScript, NextUI, Tailwind, Zustand, Framer Motion, Adonis.js, PostgreSQL.

Property Management System (PMS)

- Developed a Property Management System (PMS) for front desk operations and reservation management.
- Features include room type & rate setup, calendar-based booking management, and reporting.
- Built an interactive drag-and-drop calendar for effortless booking, rate adjustments, and room assignment.
- Implemented reservation management: create, modify, and cancel bookings.
- Generated various documents: invoices, receipts, and booking confirmations.
- Integrated OTA synchronization with platforms like One Hotel & STAAH.
- Tech Stack: Next.js, TypeScript, Ant Design, Redux, Adonis.js, PostgreSQL, Exceljs

Software Developer (Back-end Developer) **Bangkok, Thailand**

Entronica Co., Ltd. *May 2021 - Apr 2022*

- Developed the API services for mobile network customer data management used in myAIS mobile app.
- Integrated APIs with Oracle and MySQL databases and internal microservices
- Worked within a Kubernetes environment to enhance system deployment and scalability
- Tech Stack**:** Express.js, TypeScript, MySQL, Oracle, Kubernetes.

SKILLS & TECHNOLOGIES

- Frontend: Next.js, React.js, React Native, TypeScript, Zustand, Redux, Tailwind, Ant Design, NextUI
- Backend: Express.js, Nest.js, Adonis.js, Node.js, Flask
- Databases: MySQL, PostgreSQL, MongoDB, Oracle
- Tools: Redis, Axios, ExcelJS, Vinejs, Zod, Prisma, Rabbitmq, Bull Queue, Docker, Vercel

EDUCATION

Suranaree University of Technology **Nakhon Ratchasima, Thailand**

Bachelor of Information Science in Enterprise Software, 3.22 GPA *Jul 2017 – Mar 2021*
